

a Switch errors, flips and Hamming distance within one block

switch errors	4	isolated switches	2
flips	1	Hamming distance	$\min(5, 5) = 5$ of 10

b Block statistics

phased fraction	phased truth het / all truth het
block N50	span at 50% cumulative block span
switch error rate	switch errors / assessed pairs $\times 100$

longphase compare; cross-tool comparisons use --only-snvs
